Claim 35 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 35 recites tungsten carbide less than 150 microns and Brookfield viscosity of over 50000 at 0.5 rpm and over 2000 at 100rpm. These limitations are not supported by the specification as originally filed.

The amendment filed 6/23/03 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: tungsten carbide less than 150 microns and Brookfield viscosity of over 50000 at 0.5 rpm and over 2000 at 100rpm

Applicant is required to cancel the new matter in the reply to this Office Action. Claims 16-22, 24-27, 30-34 and 36-45 are allowed.
